1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arthur Crawford on 25 May, 2004.

Claim 1 has been amended at line 4 to insert the following between "resin" and "and" : ", myristic acid, butyl stearate".

Claim 33 has been amended in the same manner at line 4 to insert the following between "resin" and "and" : ", myristic acid, butyl stearate".

2. The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable based upon the unexpected results of the declaration examples and comparative examples. The amount of carbon black used in the particle coating enables the control of the myristic acid absorption and migration to an overcoated magnetic layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
